The Machine Switching Telephone Exchange THE NORTH ELECTRIC COMPANY MAKES IT

The old type of Hand-Switching Telephone Exchange is going out. The new Machine Switching System is coming in. Foreign Governments, which operate City Telephone Exchanges, are adopting it generally; the Bell Company is preparing to adopt it under The North Company's patents in its Exchanges in the United States.

It gives Telephone Service

More Quickly
More Accurately
More Uniformly
With Fewer Operators

Automanual City Exchanges (for Operator's Control)
Full Automatic City Exchanges (for Subscriber's Control)

Commercial Printing Company
Publishers

COPYRIGHTED 1918

Introductory

THE publishers take great pleasure in placing before the citizens the Galion City Directory for 1918. We are convinced that the growth of the city is steady and substantial, and we estimate Galion's population at not less than 9000. With its diversified manufacturing interests now permanently established, its fine educational facilities, its parks, its churches with nearly all denominations represented, its splendid railroad facilities—all these assure Galion a promising future. We trust that the Directory will meet all demands made upon it. We desire to express our appreciation of the liberality of the patrons who have made this publication possible and also thank the citizens generally for the prompt and courteous answers to inquiries for information. It is our intention to issue the future Directories of the City.

Respectfully,

COMMERCIAL PRINTING CO.
