TRADE! You like
to patronize those concerns
who are in business to stay.

It is natural to expect that such business establishments always stand back of what they sell.

The advertising in this Directory is suggestive of the stability and permanence of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

“When In Doubt, Play Trumps”

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1940 edition of the Galion City Directory, which also includes the rural routes pivotal from the Galion Post Office. This is the first Polk Directory of Galion, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Galion's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Galion to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Galion Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 5 to 20, on white paper, presents list of city officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 137, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Galion, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 141 to 165. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, beginning opposite page 168 and separately paged from 1 to 20, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Galion. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with

sources of supply. In a progressive community like Galion, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 189 to 214, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE GALION RURAL ROUTES DIRECTORY extends from page 215 to 225, on white paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Galion. There are more than 500 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. POLK & CO. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

GALION

Statistical Facts

Form of Government—Councilmanic.
Population—7,674 (1930 U. S. Census).
Tax Rate—\$15.40 per \$1,000.
Bonded Debt—\$144,100 (all bonds, Oct. 15, 1939).
Financial Facts—2 banks, with total deposits of \$3,056,000 (Dec. 31, 1939), and total resources of \$3,520,000 (Dec. 31, 1939).
Postal Receipts—\$63,418.60 (calendar year 1939).

Public Libraries—1, with 11,324 volumes.
City Statistics—Daily average pumpage of water works, 750,000 gallons; value of light and water plant, \$1,000,000.
Fire department has 6 men. Police department has 7 men.

General Review

Galion is a progressive little city located in Crawford County, in north central Ohio, and is especially noted for its diversified manufacturing, ideal home atmosphere, and the rich agricultural territory surrounding it.

This location was a small trading center in the early part of the 19th Century. In 1824 a post office was established under the name of Galeon, later changed to Galion. The town was surveyed and laid out in 1831, and the first railroad was built through the town in 1849.

Galion is favorably located in a very prosperous agricultural and industrial territory with a high population density. Much business is drawn from outlying districts, because of the excellence of the city as a trading point and its convenient transportation facilities. The trade territory is closely united and interlaced with steam railroads, electric lines for both passenger and freight service, highways for automobile and motor-truck traffic, bus lines, and motor-trucking lines.

Galion is outstanding for its central location, distribution facilities, proximity to raw materials necessary in manufacturing, diversified products, splendid homes, fine old trees, modern and well-equipped Heise Park, excellent schools, new and modern sewage-disposal plant, broad paved streets, favorable labor and employment conditions, high percentage of home-ownership, modern municipally-owned electric light plant and water works, new city hall, moderate tax rate, low electric light and power rate, and efficient and progressive city government. The fire and police departments are of the best. A fine spirit of cooperation prevails throughout the city's business, social and cultural life. While

Galion is a small community comparatively speaking, it is solid, and on account of its excellent location and resources, looks forward to its future with optimistic feeling. No more desirable and pleasant little city in which to live and do business can be found anywhere.

**POLK'S
GALION****Directory of Householders, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide****1940**

Copyright, 1940, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

A BUSINESS MUST BE BUILT

Builders need material to build with.

“Material” for Building a Business may be obtained from this Directory.

Build up your list of prospective customers by checking the Classified Business Lists in this book for those who should use your product.
